DAHLIAS IN AMERICA

A FEW FACTS About This Wonderful American Flower

THE Dahlia, at last, occupies a position second to no other plant in our gardens, and it is exceedingly gratifying to us as it bears out our prediction made in 1884 that, "Owing to a dearth of flowers during the summer and early autumn months, a proper development of the possibilities of this beautiful flower would give it a place of honor in every garden. Owing to its free growing habits, freedom from serious disease, and ease of safeguarding from the few insects that attack it, it can and will be universally grown." It is especially gratifying to us that our prediction of 35 years ago is being realized to the fullest extent.

During this time we have devoted our entire time and energy to aid in the development of the Dahlia, and bring about the present most gratifying results. During this time, regardless of vicissitudes, our keynote has been "Quality" which has resulted in our not only having been the original American Dahlia specialists, but the enviable position of the largest Dahlia growers in the world.

As a large proportion of existing varieties have been originated in other countries, the development was along lines suited to local conditions there, and are entirely unsuited to American conditions. This is particularly the case with Dahlias for decorative purposes. We grow the best and most reliable varieties in immense quantities, and as we are not dealers but growers, we know that our stock is the best that experience and eternal vigilance can produce.

OUR FARMS embracing 172 acres are located at Williamstown Junction, New Jersey, on the Atlantic City Branch of the Reading R. R., only 17 miles from Chestnut Street Ferries, Philadelphia, and we extend a most cordial invitation to our customers and all interested in Dahlias to visit us and inspect our fields while in bloom, during August, September and October. We have 32 trains daily and 16 trains on Sundays during summer. Time tables will be sent on request.

THE SPRING LAKE DAHLIA FARM At Spring Lake, New Jersey, one mile west of Spring Lake Beach, on road from Asbury Park to Lakewood, via Lake Como, the New Bedford and Manasquan road and terminal of Spring Lake Beach road, one-quarter mile west of Golf grounds.

Here we also have trial grounds and grow cut flowers especially for the New York Market. Pennsylvania and Central Railroad of New Jersey.

DIXIE DAHLIA FARM Fort Myers, Florida, on the south bank of the beautiful Calloosahatchee, 3½ miles below Fort Myers, on the Boulevard that parallels the river (which is here three miles wide), to the Gulf of Mexico. Here, under the sunny skies of the Southland, our Mr. L. K. Peacock and his experts spend the winters, breeding and developing those wonderful new creations shown by us in University Hall of the Wanamaker Store, Philadelphia, October 2 to 4, 1919. These new creations, grown from the Florida grown seed, filled completely the main center table, and so outclassed the named varieties that nearly half of the orders booked were for Dahlia Seed.

Visitors, customers and competitors alike marveled at the wonderful results.

We extend a most cordial invitation to our friends and flower lovers to visit any or all our farms.

Our complete trials at Williamstown Junction this year will contain over 2,500 of the **World's Best Dahlias**.

ORDER EARLY It will greatly facilitate shipments if orders are sent in early. We aim to send out orders the same or the next day after receipt, but during the rush season this is impossible—hence the advisability of ordering early.

Guarantee. We guarantee every plant, bulb or root sent out by us to be just as represented, absolutely true to name, reach destination safely in perfect condition and prove entirely satisfactory; we will cheerfully replace any that should prove otherwise.

Terms. Cash with order. Remittances may be made by Bank Draft, Post Office or Express Money Order, or Registered Letter at our expense and our risk.

Forwarding. Dahlia Roots and Plants are sent by mail postpaid at prices named herein; but larger stock will be sent by express, charges collect, and "Extras" are added to help cover charges. Dahlias are billed at "2nd class" rates and in most cases are one third (!) or 33! per cent. less than regular merchandise rates.

Errors. While we exercise every care, errors may occur occasionally. In such a case kindly notify us at once, and correction will be promptly and cheerfully made.

Name and Address. Be sure and write name and address plainly on each order or communication.

Address all orders or communications to

PEACOCK DAHLIA FARMS,
Post Office, Berlin, N. J.

DAHLIAS for 1920

We realize that there are too many varieties and while we test thousands each year, we offer only the very best. We have still further reduced our list this year by omitting many of the older varieties that have been superseded by similar but better ones.

At the request of many of our customers we have used large type to designate the very best. This will greatly simplify the selection for beginners and those with small grounds.

Classification and Culture

We will send free on request our eight-page pamphlet on culture and classification.

New Book "The Dahlia"—Fifth Edition

By Laurence K. Peacock, 80 pages, 7¾ by 10¾, beautifully illustrated. Fifth and revised edition. A practical treatise on its habits, characteristics, classification, culture and history, by one who for 34 years has never failed to have a crop of the finest blooms, in their season, regardless of conditions. Price, 50c. postpaid. FREE on request with all orders amounting to \$5.00 or more.

QUEEN MARY On the front cover page is shown a half-tone reproduction of a photograph of this grand decorative, that has proven its worth as the best pink. The size is large to very large, full high center, even up to November 5th, 1919, when it was the only variety that was not showing a per cent of open center flowers.

The color is a clear silvery cerese pink.

The plant is a strong, healthy, vigorous, upright, branching grower, producing the giant flowers freely, on long stiff stems, until killed by frost. Strong root, 50c.

MRS. HOWARD M. EARL, (See illustration on last cover page). Another year has more fully demonstrated the merits of this greatest of all paeony-flowered dahlias. The illustration will give an accurate idea of its beautiful form—light, graceful, artistic; but, no conception of its wonderful color combinations, great size, long stems, vigorous growth, rugged constitution, and last, but not least, freedom of bloom.

The color is soft yellow at base of the petals, shading to salmon-pink and carmine and tinting lighter at the tips; a combination most pleasing and appealing.

MRS. HOWARD M. EARL was easily the most beautifully striking dahlia on our grounds the past three years, attracting far more attention than Geisha. It is of the same general type, but more beautifully formed, and a most wonderful combination of harmonious shades and tints; being a cross of Geisha and Mrs. Wm. Kerr, it has the rugged constitution of the latter, combined with the free growing and blooming qualities of the former.

The plant is a very strong vigorous grower, of the same character as Geisha, but more robust, with dark healthy foliage. The flowers are larger and borne in great freedom, on long, slender, wiry stems.

MRS. HOWARD M. EARL will succeed everywhere, as it is a strong vigorous grower, producing strong roots that keep well. The flowers grow 7 to 10 inches in diameter and keep much better than Geisha, making them one of the most valuable for cut flowers and particular decorations.

Specimen plants last year in the hardy border on the grounds of Mrs. T. H. Bennett at Spring Lake, New Jersey, stood six feet high, three feet across and had 15 to 20 giant flowers each, during August, September, and October. Price, strong roots, \$2.00 each.

Type of True Cactus Dahlia.

Dahlia Seed

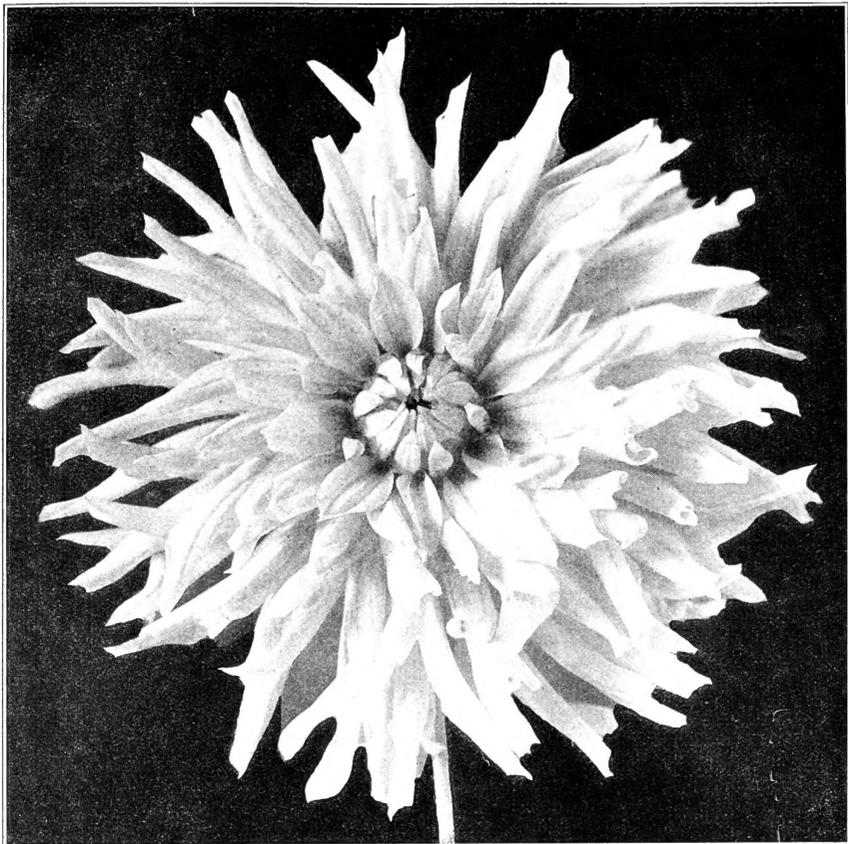

At Fort Myers, Florida, on the south bank of the beautiful Caloosahatchee, where it widens out to three miles, and the warm water of the Gulf of Mexico is carried back and forth twice each day by the tide, thus affording protection from frost throughout the winter, we have purchased land and established a Dahlia Garden for the express purpose of making a specialty of hand-pollitized Dahlia Seed.

Our Mr. L. K. Peacock and his experts devote the entire winter to growing the **World's Best Dahlia Seed**. Professional growers, as well as amateurs, marveled at the wonderful new varieties grown last year from this seed.

The reorganization of the Peacock Dahlia Farms was effected along broad business lines by practical business men and bankers, who realized the great possibilities of capitalizing the experience, knowledge, ability and energy of Peacock "The Dahlia Man," "the original American Dahlia Specialist," "idealist and dreamer."

The first results were shown in the wonderful new seedlings raised from the Florida grown seed.

AT THE WANAMAKER-PEACOCK DAHLIA EXHIBITION, University Hall, in the Wanamaker Store, Philadelphia, October 2d, 3d and 4th, 1919, the main center table was

Type of Hybrid Cactus Dahlia.

devoted exclusively to the new seedlings. Here the different types of each class so far outclassed the best named varieties that nearly half of the volume of orders placed was for our specially grown seed.

The most gratifying recognition has been given Mr. Peacock for his achievement by Mr. John Wanamaker in donating the hall and arranging for a screen display, in connection with the daily talk, by the newspapers, who recognized and commended most highly the work being done, and by the flower loving public, who came to see the world's greatest Dahlia grower, hear him talk, and learn not only how to grow Dahlias, but to be convinced that they, each and every one of them, could grow the very finest Dahlias by giving them their few simple requirements.

The tens of thousands of people who saw this exhibition, heard the talks, or read of them in the newspapers were still more astonished on their visits at our farms. It was not uncommon to see three, four and even five seedlings in succession perfectly full to the center, and equal or superior to the named varieties, not to mention the real prizes at intervals.

Over 400 of the best named varieties were used in the crosses, and this year nearly 1,000 varieties will be used.

For, as reported in *The North American* and other papers, Mr. Peacock is going to eliminate all degeneracy in Dahlias by producing healthy, vigorous plants of all classes and types to surpass existing varieties, so many of which have weak constitutions.

He is breeding on scientific lines, and as you read this he and his assistants will be hard at work down in the Southland, preparing still greater surprises for the Dahlia loving public.

Here are a few facts gleaned from those talks:

Dahlias from seed are stronger than from cuttings or roots, and each year removed from seed they are just that much weaker.

As a rule, the stronger the variety the less freely they bloom, and the weaker the root the more freely they bloom. Just demonstrating nature's laws of self-preservation.

Again, you not only have a *chance* to produce the *world's best Dahlia*, but are *sure* to have something beautiful and

Type of Decorative Cactus Dahlia.

different from your friends and neighbors; and you will have something you cannot buy—the pleasure of watching the development of the first bud on each plant with all the thrills the law now forbids in some other direction.

We offer seed in following classes:

CACTUS DAHLIA SEED. Dahlias do not come true to name from seed, hence the improvement and pleasure derived at the same time. On page 2 we show the true cactus type; on page 3 we show the hybrid cactus type; on page 4 we show the decorative cactus type. Seed saved from choicest new varieties of all these types, per packet.....	\$1.00

Mrs. Reginald Bailey. Immense size, splendid form with long, narrow, incurved petals; color, brilliant glistening crimson; early and continuous bloomer on long stems50
Mrs. Winstanley. Orange red.....	.25
Perle Hilde. A delicate shell pink sport of Kriemhilde.	.15

Mrs. C. G. Wyatt

No garden is complete without the F. R. Austin Paeony Dahlia

Collarette Dahlias

This uniquely distinct class or type is rapidly gaining in popularity. The flowers are single with a row of smaller or collar petals around the center. These collar petals are generally distinct in color from the rest of the flower.

The accompanying illustration of twelve varieties will show their forms and variations far better than words, and will be a pleasing surprise to many who have not seen the newer and larger type. We know these will please you and add to the beauty and attractiveness of your collection.

New and Superb Collarette Dahlias

Albert Maumene. Velvety crimson Each
purple, margined white, collarette
white \$.25

VALTRO. One of the most striking new collarettes, a wonderful and effective color combination. Rich crimson shaded maroon, margined and tipped white; collar petals white slightly flushed crimson. New and distinct. 1.00

Arden. Very rich and effective; deep golden yellow blotched vivid orange crimson, collar pure yellow. .50

Comte. Chermeteff. Cream suffused red; light collar. .25

Compte Nodler. Large, deep purple, white collar. .25

Diamant. Very large, velvety violet, collar light rose; very distinct and effective. .75

Dorian. Rich crimson, shaded maroon; collar white suffused crimson. .50

ELGRAVE. Duplex collarette, most novel and effective, with two or more rows of petals; rich maroon, collar petals maroon heavily tipped white. .25

FAYETTE. Very striking and effective; flowers are large, bright scarlet, with bright yellow collar petals. The plant is a strong vigorous grower, and free bloomer; most effective for garden and cutting. .50

Maurice Revoir. Rich crimson maroon; white collarette. .25

Mme. F. G. Bruant. Rich velvety maroon, with white collarette; large and fine. .25

Mons. L. Ferard. Rich rosy crimson, edged and marked white; very large collar of same color. .25

Princess Louise. An exquisite new variety; large, carmine and white; collar white suffused carmine. .25

Regularity. Color scarlet and white, most effective for all purposes. .25

One each of 13 superb collarette dahlias described above for \$4.50.

New and Superb Decorative Dahlias

A remarkable collection of new and rare varieties that elicited the unbounded enthusiasm of our thousands of visitors; some of the flowers are 8 and 9 inches across, all are large and the very best to date.

Break O' Day. A new giant flowered dahlia that should be in every collection. Its immense size is relieved by the beautiful irregular formation and its soft color. Each

A delicate clear sulphur yellow, tinting to sulphur white at the tips. The petals are of great substance, illuminated by a satiny sheen, giving the flowers a waxy appearance. A strong vigorous grower and free bloomer, with long erect stems. An acquisition. \$1.00

BREEZE LAWN. A grand variety of great promise, that is claimed to surpass Minnie Burtle, but it is different and entirely distinct. A grand exhibition, 8 inches and over in diameter, when properly grown. Color vivid vermilion; of splendid form and full center. .75

Chieftain. Clear, light red, heavily streaked and splashed canary yellow; some flowers all red; very large and attractive. 1.00

DR. TYRRELL. (See illustration, page 9.) Originated by F. R. Austin, treasurer of the American Dahlia Society. The flower is substantial in form and prolific. We have had disbudded flowers more than eight (8) inches across. It is an immense flower, with a good sturdy stem and fine keeping qualities. The color is a rich golden bronze, with bronzy red at base of petals, giving the flower that rich bronzy effect. The two shades are most effective. The plant is a very sturdy, healthy grower, with dark luxurious foliage, showing its hardy constitution. Strong roots. .40

Collection of 12-Collarette Dahlias showing beautiful new types

A. C. Ide. Very large, rich velvety maroon; a fine garden and exhibition variety; an early and free bloomer. .50

American Beauty. Very large, bright crimson; the giant flowers are perfectly double with great depth and are borne on long stiff stems. .50

AYESHA. A wonderfully handsome, clear light yellow dahlia, that has attracted great attention. The flowers are of immense size; beautiful, regular form, with large shell like petals, and borne on long stiff stems. The plant is a strong vigorous grower and a most profuse bloomer, considering its large size. Excellent for garden, exhibition and commercial purposes. .50

Bertha Von Suttner. Beautiful soft mauve pink, very large; plant is dwarf, an early bloomer. .35

Beloit. Immense size; the rich crimson flowers are of beautiful semi-cactus form and borne on long stiff stems. This is one of the very best dahlias. .40

BLOEMHOVE. Another immense flower that attracted attention, similar in form to Bertha Von Suttner, but a beautiful clear lilac rose color. The plant is a sturdy and extremely profuse bloomer. The form is beautifully irregular with long reflex petals, resembling a huge broad leaved, reflexed chrysanthemum. 1.00

John Wanamaker \$2.50 per dozen, \$4.75 for 25, \$17.50 per 100. Makes a fine bed planted 2½ to 3 feet apart

Decorative Dahlia John Wainmaker. See Description, page 1.

|---|----------------|---|---------------|
| FANTASIE. A new acquisition that promised to become a universal favorite. The flowers are very large, exquisite form and coloring. The color is entirely new and distinct, being salmon shaded blue. It is a very profuse bloomer..... | Each
\$1.00 | reflex outer petals. The foliage is dark green with dark stems. We guarantee this variety to have a strong rugged constitution and to be the ideal golden yellow decorative, without a fault..... | Each
\$.50 |
| FLAMINGO. This is the genuine Flamingo and red as it should be. Besides being a brilliant red, it is of immense size with long twisted and curled petals, giving it a most uniquely irregular form. The immense flowers are borne on long stiff stems. It is a strong vigorous grower, an early and free bloomer. The flowers are very double, being always with a full high center..... | .75 | Glorie Lyonnaise. Very large, yellow suffused and tipped scarlet: profuse bloomer..... | .75 |
| GENERAL J. B. SETH. Very large and perfectly formed, with long, rather broad, petals; color a rich strawberry red. An early and profuse bloomer..... | .50 | Harpon. Citron yellow, heavily tipped red..... | .50 |
| GOLDMINE. At last we have the ideal, pure golden yellow decorative dahlia. It is large, with stiff stems; an extremely early bloomer and perfectly full at the center until frost. The plant is a strong vigorous grower of medium to dwarf branching habit, while the flowers are of regular form with flat or slightly | | HERR HOHENZOLLERN. It is a new variety that will be grown universally as soon as the large, dark velvety red flowers are seen..... | 1.00 |
| | | Hortulanus Fiet. Immense size with full, well formed center, color an exquisite shade of salmon pink; must be seen to be fully appreciated..... | .75 |
| | | Hortulanus Witte. Very large, pure white; with good stems, one of the best..... | .35 |
| | | J. LIDDEN PENNOCK. A dwarf branching plant, producing immense rich plum colored flowers freely; the flowers are 6 inches across and 4 inches deep. An extra fine variety..... | .50 |

L. Kramer Peacock is the great white Decorative for amateur or commercial grower

New Hybrid Decorative Dahlia, Mrs. C. H. Breck

- JOHN WANAMAKER.** (See illustration, page 13.) Each
 This, as the photograph shows, is the most beautiful of all dahlias, having a formation entirely its own in its charming irregularity. The flowers are alike, and yet not exactly alike, one of its charms. **Awarded first prize as the best pink dahlia, any class, by the American Dahlia Society at the New York exhibition.** A substantial corroboration of all our claims. The plant is a strong, vigorous, branching grower, and the earliest, most constant and profuse bloomer.. \$.40
- KING ALBERT.** In this we have a magnificently royal flower. Large, finely formed, rich royal purple. It is a strong vigorous grower and free bloomer..... 1.00
- L. KRAMER PEACOCK.** In this new decorative we have an ideal white. The flowers are pure white of splendid form, with slightly cupped petals, something of the shape of Ayesha and of the greatest substance, being thick, leathery and keeping longer than any other white. It is of strong branching habit and produces the flowers on stiff rigid stems. It is an early, free and continuous bloomer. We have tested this variety most rigidly for the past five years and it has proven itself the most reliable and best white decorative to date; surpassing such varieties as Mont Blanc, Princess Juliana and Hortulanus Witte in size, form and keeping qualities..... .50
- MARIANNE.** A most pleasing and distinct variety that is greatly admired. Color a rich purple and white; very striking..... \$.50
- MINNIE BURGLE.** (Mina Burgle.) Another year has again demonstrated that this is the **best red dahlia in the world.** The plant is a strong, vigorous grower, with dark glossy foliage and an early free and continuous bloomer. The flowers are of large size, perfect form and produced on long stiff stems. The color is a vivid vermilion red. It has no faults, and requires no special care or attention. By this we mean it is the flower that will grow anywhere, in any kind of soil. We grew it the past four years in both clay, gravel and sandy soil and it was equally fine in all. It was, owing to its erect stems, vivid color, large size and freedom of bloom, the most conspicuous variety in our trials the past season. **MINNIE BURGLE** should be in every collection. We stake our reputation on all our claims that it is the best red for amateurs in the garden, for exhibition, and for all purposes. (See illustration, page 15.) Strong roots..... .35
- MRS. C. H. BRECK.** One of the most effective varieties for all purposes. Color soft yellow suffused and tipped carmine, bright and effective. The plant is a strong vigorous grower of dwarf, branching habit and an early, profuse and continuous bloomer. The flowers are large and borne on stiff erect stems. It is a hybrid decorative. (See illustration, page 14.)..... .50
- ORANGE BEAUTY.** One of the handsomest decorative varieties that has ever been introduced. It is a beautiful glistening orange, deep and rich, the clearest and richest of this popular color. The plant is a very sturdy healthy grower, of medium height, branching habit and produces the flowers freely on good stiff stems. The flowers are of good size and splendid form, the outer petals reflexing to the stem. A splendid cut flower, very striking and effective, both under natural and artificial light, also very effective in the garden..... .50
- PINK FLAMINGO.** While the name is a misnomer, the flower is a beauty, being of fine form, sometimes showing an open center. Color violet rose, overlaid Tyrian rose; very early and free flowering..... .50
- PINK JACK ROSE.** Rose pink sport of Jack Rose... .30
- PRINCE OF ORANGE.** This is what has been wanted for a long time. A first-class orange, and this variety will most satisfactorily fill the want. Rich orange, of fine form, large size and a fine bloomer..... .75
- Propaganda.** Primrose yellow, lightly suffused crimson on reverse of petals..... .35
- QUEEN MARY.** See illustration, front cover and description, page 1..... .50

Decorative Dahlia, Minnie Burple. See page 4.

Mrs. Winters. Pure white.....	.25	RED DUKE. Very large, rich dazzling cardinal red; splendid form with quilled petals. A red Grand Duke Alexis.....	.50
Old Gold. One of the richest of Autumn shades, especially valuable for decorations. Old gold shading to orange; splendid form on long slender, but stiff, stems. A grand acquisition.....	.25	Souvenir de Gustav Doazon. Soft scarlet red.....	.20
		SYLVIA. Deep pink, tinting to light pink at the center; large, perfectly formed flowers produced profusely on long stiff stems. This variety is indispensable where quantity of flowers are wanted. It is a strong vigorous grower, and always blooms. Selected stock.....	.15
		Yellow Duke. Canary yellow, quilled petals; a giant flower on long stems.....	.15
		One strong root of each of the 29 select decorative dahlias described above for \$6.00.	

The world's best Red Minnie Burple 35 cents each, \$3.50 per 12, \$6.75 for 15, \$25.00 per 100. It makes a wonderful bed

New Paeony Dahlia, F. R. Austin. See Description, page 19

Paeony Flowered Dahlias

This is one of the newer types, also called the Art or Artist's Dahlias. The true type resembles the Japanese Paeony; yet several of the most valuable and popular varieties differ from the true type.

AUTUMN GLOW. (See illustration.) One of the most valuable and effective dahlias grown. It stood out as the most effective in a 30-acre field. It is absolute perfection in every way. The colors blend from yellow to golden scarlet, with a pinkish suffusion. No two petals are just alike in the blending of shades, but the colors are always the same. The

outer petals are deep pinkish scarlet, with yellow marking and tips, and each row opens up softer against the darker background of the outer petals. The illustration shows the form and straight stiff stem. The flowers are large, and produce freely on long erect stems. The plant is a tall, strong vigorous grower and profuse and continuous bloomer. \$2.00

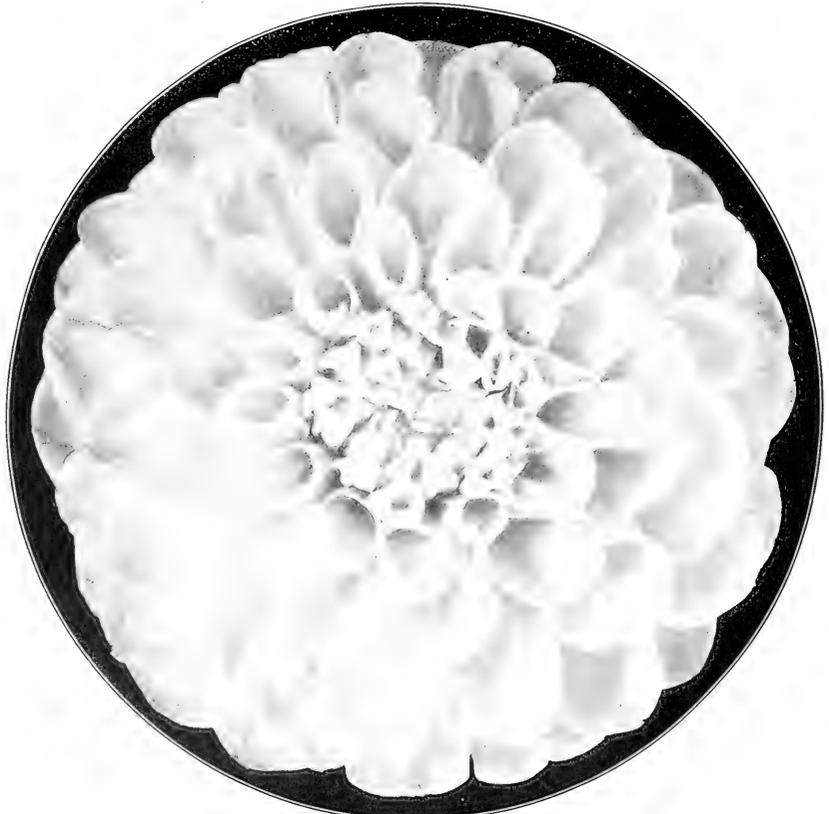

Twelve wonderfully beautiful Dahlias, all types, our selection, new and rare for \$5.00

New Paony Flowered Dahlia, Mrs. Wm. Kerr. Showing its natural habit of blooming in clusters of three; showing bud half opened and fully-developed flower. Comparison with foliage shows the large size; you can conceive the result when disbudded

- | | | | |
|--|----------------|---|----------------|
| BERCH. VAN HEEMSTEDÉ. A new paony variety that will be generally grown as soon as its good qualities become known; color pure yellow, large size, fine form and free bloomer..... | Each
\$.50 | Color, the outer petals are very long creamy yellow suffused, banded and shaded rich crimson; the inner petals are yellow at base tinting lighter, and suffused pink and crimson. The plant is a very strong vigorous grower, an extremely early and free bloomer, and continues to bloom the entire season, making it the most valuable for garden, exhibition or cut flower purposes. Strong roots..... | Each
\$.50 |
| BERNICE. Soft rose pink; large broad petals, very large flowers on stiff slender stems..... | .50 | JESSIE CAIN. Golden yellow at base of petals, suffused and blotched scarlet tipped yellow. A beautiful flower, of large size, with long broad, slightly pointed petals. Strong vigorous and profuse..... | 1.00 |

| ELSE BURGESS. Large, white suffused and tipped lavender | Each \$.25 |
| IVANHOE. Very large; white suffused and edged soft lavender pink | .50 |
| MARY PICKFORD. An improved Arabella, large, soft primrose, edged and suffused rose. A strong vigorous grower and free bloomer that will supplant that old favorite. | .35 |
| MISS HELEN HOLLIS. Very large, rich vermilion scarlet, of beautiful form and always full to the center. A tall strong vigorous grower and free and continuous bloomer. | 1.00 |
| MRS. THOS. SHARP. This is one of the most exquisite in coloring and habit. A rich golden orange, of rather loose formation, but very regular and always full to the center; medium to large size. The plant is a dwarf branching, spreading habit and an extremely profuse bloomer. Fine for garden or cutting. | 1.00 |
| Rose. An exquisite ball dahlia of full regular form and a bright lively carmine rose color; it is very distinct, large on long, stiff stems. | .50 |
| STRADELLA. Deep purple crimson. A very early and free bloomer, fine form. | .35 |
| W. W. Rawson. Very large with semi-quilled petals, long upright stems, color white, delicately flushed and suffused lilac. | .25 |

One each of the 10 new and rare dahlias described above for \$8.50.

New and Rare Giant Ball Dahlias

This is a superb collection that attracted the greatest attention from thousands of visitors on account of the distinct coloring, large size and long stems.

- | | |
|---|-------------|
| Della Dorsheimer. Large, soft shrimp pink quilled petals; long slender stems..... | Each \$.30 |
| DOROTHY DE LA MARE. A seedling of Dorothy Peacock and the loveliest of this entire class. It is very large, and full at the center until the outer petals have reflexed to the stem. The color is delicate, pure pink, tinting lighter to the creamy pink center. The color is pure and delicate. The flowers are of finest texture, borne on long stiff stems, making it most effective for the garden. It is an early and free bloomer, strong vigorous grower, dark, healthy foliage, good strong roots, that keep splendidly. This is too large and heavy for a commercial cut flower, but is most effective for the exhibition table and private decorations, or for specimen plants on the grounds.. | 5.00 |

Select Ball Dahlias

One each of the 9 pompon dahlias described above for \$1.60.		

New Century Dahlias

Are the last word in this popular type and we take great pleasure in introducing such a grand set, in such a wide range of colors, types and characteristics as embraced in the following 14 varieties, now offered for the first time.

ALICE. Pure snow white; flowers are light and airy; the petals being wavy, long and slightly irregular. The plant is a strong, vigorous grower, an early and profuse bloomer, flowers are large size and produce! on long stems..... \$1.00

AUTUMN CENTURY. A fine large, bronzy variety; buff yellow shading through amber to red, with an iridescent sheen. The flowers are very large, 6 to 8 inches, of regular form; with long broad petals. The plant is a very profuse bloomer, producing the flowers on long stiff stems. Fine for commercial cut flowers, exhibition, table decorations or for specimen plants or massed on the grounds..... 1.00

BARTON. Rich, vivid, cardinal red; flowers are large, of finest regular form and great substance, keeping well after cutting and on the plant. Strong plants..... .75

CONTRAST. A new type that has attracted a great deal of attention from its striking appearance. The flowers are very large, crimson, tipped white, and produced on long stiff stems. Strong plants..... 1.00

GEORGE YOUNG. Pure light yellow, with long, broad, regular petals; flowers are very large on long stiff, but graceful stems. Plants strong, vigorous; early and profuse bloomer..... 1.00

GIANT CENTURY. Undoubtedly the largest single in existence and a most lovely combination of shades and tints, that must be seen to be fully appreciated. The giant flowers are beautifully formed, with long broad petals, that taper at the point and are slightly wavy, giving an added charm. The flowers are often more than 8 inches in diameter, sometimes measuring more than 10 inches across. Color is yellow at base, shading to bronze salmon and rosy crimson, with lighter tips. The plant is a strong, but dwarf grower, enabling it to support the giant lovely-hued flowers on erect stems. Strong plants..... 3.00

GLORIA. A very striking Century; rich yellow, tipped and penciled vivid red. Flowers medium to large and produced freely on very long stiff stems. A splendid keeper and one of the very best for all purposes, especially for commercial cut flowers, on account of splendid keeping qualities..... .75

Vase Pompons

Fifteen Dahlias, all classes, our selection, \$1.50 Ten for \$1.00, postpaid

New Century Dahlia, Mrs. Wendel Reber

JESSIE. At last the ideal white Century dahlia. The flowers are snow white of perfect form, with long broad regular petals and fine texture; are produced early and continuously on long stiff stems, making it invaluable for exhibition, decorations, or commercial cut flower. The plant is a very strong, vigorous grower \$1.00

POPPY CENTURY. A great improvement on all of its type. A cross between the old Poppy and Peacock's Black Paeony. It is larger, more regular, richer in color and the center is very dark, almost black. The color is rich velvety garnet shaded maroon, with a wonderfully lustrous sheen. Strong plants..... 1.00

PURPLE CENTURY. Very large, with long, broad petals. Flowers are finely formed, with good texture and a wonderful rich purple color. The plants are very strong and vigorous, with dark healthy foliage.. .75

SUMMER GIRL. Immense, soft yellow flowers, borne on long stiff, graceful stems in greatest profusion. The plant is a strong vigorous grower, early and continuous bloomer. 1.00

VELVET CENTURY. One of the richest velvety flowers the imagination could conceive. The color is rich velvety maroon, with bright red and light markings at the base of each petal as shown on illus-

tration, on page 24. This photograph shows its fine, regular, but wavy form and color contrasts. Strong plants \$2.00

VERMILION CENTURY. Rich vermilion red, fine large regular form and borne on long stiff stems. A strong, vigorous grower; an early, continuous and profuse bloomer.75

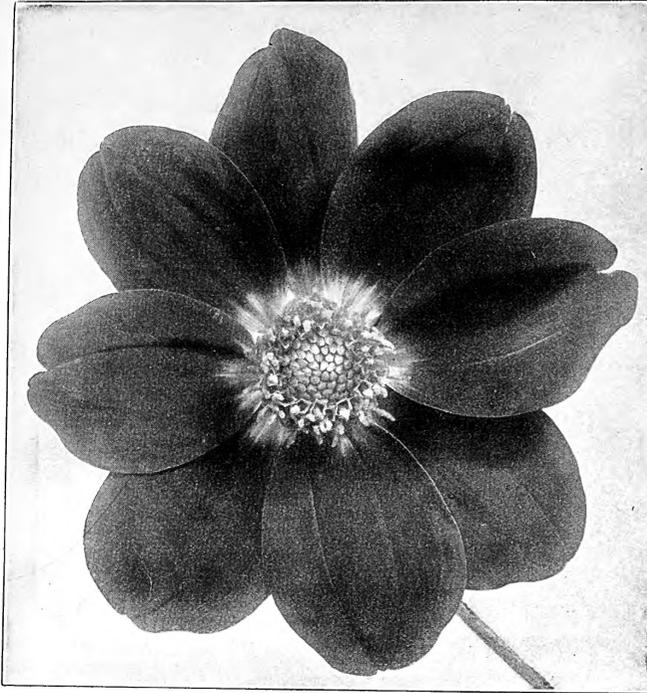

YELLOW CENTURY. Very large yellow, with long stiff stems.75

Superb Century Dahlias

Anna Long. Clear rosy pink, with white band running through each petal; sometimes solid pink..... \$.25

Cream Century. Another delicately colored giant flower. Color a rich cream which suggested the name. A fine companion to Mrs. Wendell Reber. It has the same giant size, regular form, long stiff stems, robust habit of growth. The plants are 5 feet high and bloom early, profusely and continuously until frost. Strong roots.20

Eckford Century. Probably the largest single dahlia in existence; the immense flowers, pure white, spotted pink and penciled crimson, are produced in abundance on long stiff stems. Height 5 feet..... .20

New Volect Century Dahlia. See Description, page 23.

Geisha Century. This is an intensified Mrs. Wendell Reber. The inner half of the petal is a rich yellow, the outer half is an intensely rich scarlet—the Geisha colors—hence the name. This is one of the most striking of the Century dahlias and attracted marked attention in the fields, also one of the most popular as a commercial cut flower. It gives you the Geisha color and the long stiff stem for decorative effect that is lacking in the Geisha. The giant flowers are of perfect regular form, and borne on the long stiff stems, with the cut or fern foliage of the Century it is one of the most striking acquisitions to this most popular class. Invaluable for cutting, decorations, or the garden. Height, 6 feet. Price, strong roots..... \$.25

Josephine. The acme of perfection in snow white. The flowers are very large, splendid regular form, but unlike so many white single dahlias, the long wiry stems hold the flowers erect, which, with their great substance, make them especially long keepers and valuable for all cut flower purposes. The plant is a very strong grower, with dark, heavy foliage which testifies to its health and vigorous constitution. 50

Mrs. Joseph Lucas. A combination of shades. Rich yellow overlaid bronzy scarlet, lightened, suffused and edged salmon rose. The flowers are immense in size, splendid substance, lasting a week after cutting. The form of the flowers are particularly pleasing as the huge petals have an artistic irregularity in contour. Mrs. Joseph Lucas is not only one of the handsomest and very largest Century dahlias but a very early and profuse bloomer. The plant is a model; of medium height (4 feet) and blooms so freely as to resemble a huge bouquet. As a cut flower it is unexcelled on account of size, form, keeping qualities, coloring, and stiff slender stems. Price, strong roots..... 25

Wildfire Century. Century size, with the brilliant, rich scarlet of the old Wildfire. Acknowledged the best commercial scarlet. Height 3 feet..... 15

Mrs. J. C. Hance Century. Each
Bright carmine pink, with bluish white disc. An exquisitely lovely flower, of largest size, with long stems. Height 4 feet... \$.30

Mrs. Wendell Reber. A blending of soft tints, suffused and tipped lightly soft scarlet. The flowers are of immense size, regular form with stiff stems 2½ to 3 feet long, making them invaluable for decoration. The plants are large, strong, vigorous with beautiful, healthy foliage. This is a variety that must be seen to be fully appreciated, and once seen, the fancy lingers. It is one of the strongest Century dahlias growing—6 feet high—a giant in every way and such delicate coloring. Strong roots..... 25

Rose Pink Century. The largest and best deep pink; enormous flowers on long 3 feet stems; sure and continuous bloomer, vigorous plant. Height 5 feet..... 15

20th Century. The original Century originated and introduced by us in 1901. Early in the season, intense rosy crimson, shading to white at tips and base of petals; but as the season advances the flowers open lighter until by October they are nearly white, a bright pink blotch in the center of the petals. Height 4 feet..... 15

Best Single Dahlias

The ordinary single dahlias have been superseded by the Century dahlias, yet a few of the most beautiful or distinctive are appreciated, especially where color effects, smaller flowers or dwarf plants are desired.

APPLE BLOSSOMS. Soft pink heavily tipped carmine pink edged crimson, changing to softer tints as the season advances. \$.25

HAZEL HEITER. A high colored single, a fine combination of pink, crimson and maroon. 25

PRAXITELLES. The color is a deep, velvety violet maroon, each petal tipped white. The plants are dwarf, branching and profuse bloomers; the colors distinct and striking. This is undoubtedly the richest and most effective of all fancy single dahlias. Strong roots. 25

Rantendelein. Another fancy single. Color pure white, each petal has a narrow margin of deep crimson on each side. A very profuse bloomer. Plant dwarf and branching. Height 3 feet. Strong roots. 25

RED AND WHITE. A charming new single with the pure white band running through the brightest red; very distinct and striking. 50

St. George Improved. A seedling of the St. George and similar in every way, but a larger, stronger plant with heavier foliage. Flowers clear canary yellow and twice the size of St. George, on longer stems. 30

One each of 6 best and most distinct single dahlias described above for \$1.60.

You should have a few new Century Dahlias. They are so appropriate for house bouquets

Autumn Shades Decorative Dahlia, Minnie McCullough. See page 17

Book, "The Dahlia"

By Lawrence K. Peabody—The original American Dahlia Specialist, who since 1884 has never failed to have a crop of blooms when dahlia time came. Clear, concise and practical; it makes the path to successful dahlia growing easy. This is the 5th and revised edition (four editions having been long exhausted). It is a book of 80 pages, same size as this page, with a color insert of Minnie Burtle, the greatest red dahlia from California, and 58 beautiful half-tone illustrations showing the various types and views of interest to dahlia growers, with full instructions of how to grow, history, classification, etc. Price, 50 cents, postpaid.
